Telework Successfully: Provided training sessions for Senior Executive Service and General Schedule employees. Training focused on leading virtual teams and leveraging current technology. Strategies and tools increased the capability of supervisors to engage remote workers, monitor performance, and improve the effectiveness of USMS meetings and collaboration efforts. *(DOJ, U.S. Marshalls Service)*

A series of four customized trainings helped U.S. Marshall’s Service (USMS) staff become familiar with the features of the USMS SharePoint environment and implement strategies to communicate and work effectively in a virtual environment.

Training and Development: Executed a vital emergency operations training development and delivery program to better equip first responders in their use of Personal Protective Equipment. Implemented the Baldrige Quality model, secured a high level of buy-in by engaging stakeholders in the development of the products, and earned a perfect CPAR evaluation. *(HHS, National Institute for Occupational Safety (NIOSH))*

HR Policy Support: Provided federal subject matter and writing expertise to federal HR partners to develop and update HR policy according to 5 CFR and agency requirements. *(DOJ, Office of Justice Programs and the National Science Foundation, Human Resource Management Offices)*
